

The image shows a close-up of a textured surface with a metallic, brushed appearance. The texture consists of irregular, overlapping ridges and grooves, creating a three-dimensional effect. The color is a muted, greyish-green. The text 'decorMetl™' is written vertically in a white, sans-serif font on the right side of the image.

ACOUSTIC PANEL SYSTEMS FOR INTERNAL WALLS AND CEILINGS

- 1 Architectural and artistic
- 2 Impact resistant
- 3 Aesthetic appeal
- 4 Versatile and adaptable
- 5 Hardwearing and sturdy
- 6 Colourfast and low maintenance
- 7 Cost effective
- 8 Create the look and feel of real metals

Challenge the boundaries of your design.

DecorMetl is a panel coated with a specialised metal finish, which produces an authentic and unique surface that can be used for both interior and exterior applications.

This range of finishes is a source of inspiration for architects and designers, as they extend the design and construction potential of traditional substrates, by allowing them to be treated as if they were solid metal.

These applied, metal finishes can be sandblasted, engraved, burnished or lished, resulting in a multitude of different textures and effects. From aged and rusty, to sleek and modern, DecorMetl is sure to add a unique and individual statement to your project.

Refer to your Decor Finishes Booklet for comprehensive information regarding substrates and finishes.

Imagine the Potential

We're here to help!

Professional advice and free consultation up front - and right throughout the entire project - from conceptual design to installation.

You're going to be very impressed with the boundless potential of DecorMetl - and the price!
