

PROJECT SHOWCASE

Oran Park Anglican College

Decor Systems' extensive range of compliant, sound-controlling panel solutions satisfied the clients challenging requirements to reduce reverberation whilst providing a high quality durable finish.

Using a mix of solid and slotted panels to achieve the required acoustic performance a multipurpose hall demands, the Decor-Trend slotted panels were up to the task and stand proud in the space. Guaranteed for 99 years the panels will be a testament to the craft of all parties involved with the completion of this project.
